FOR IMMEDIATE RELEASE

REDDING –The California Department of Transportation (Caltrans) and contractor Timberworks will begin work on the \$2.7 million Burney Creek Bridge Replacement Project on SR 299 in downtown Burney beginning the week of April 9, 2012.

Minimal delays are expected during construction which will include detouring traffic over to the south side of the bridge in the first stage and then detouring traffic to the north half of the bridge during the second stage. To accommodate the detouring of traffic, on-street parking will be eliminated from Shasta Street to just east of Butte Street. Businesses will remain open and accessible during construction which is anticipated to be complete in November 2012.

For more information please contact the District 2 Public Information Office at (530) 229-0511.
